

CARROLL COUNTY YOUTH SERVICE BUREAU

Providing mental health and substance use services to children, adolescents, adults, and families.

FY2023 ANNUAL REPORT

"It Starts With the Heart."

Carroll County Youth Service Bureau is an outpatient behavioral health clinic providing mental health and substance use services. We are licensed by the Maryland Department of Health (MDH), accredited by the Commission on the Accreditation for Rehabilitative Facilities (CARF) and certified by the Department of Juvenile Services (DJS). Carroll County Youth Service Bureau has provided outpatient services in Carroll County since 1972 and has grown into a multi-disciplinary behavioral health practice that offers a continuum of outpatient treatment options. Therapists utilize a family-systems approach that incorporates the child, adult, and family within their community and recognizes and values their impact on one another. This approach reinforces individual and family strengths, addresses identified needs, and utilizes community resources.

A HEARTFELT MESSAGE FROM THE BOARD CHAIR & EXECUTIVE DIRECTOR

Dear Friends of the Carroll County Youth Service Bureau:

It is with much sadness that Pat Scheper, Board Chair, and I end our time here at CCYSB. I am so fortunate to have spent my career doing work that engages, excites, and rewards me and has, in some small way, impacted the people we serve. My work here has been an unparalleled journey, greatly enhanced by the support of the County Government, our expert, and dedicated Board, our exceptionally skilled and caring staff, our community partners, the trust of our clients, and the community in which we live.

Please take a moment to learn about Pat and his contributions to our Board. Pat will continue as a member of the Board for one more year as Director Emeritus. Ed O’Meally has generously accepted the role of chair, and we look forward to continued excellence in leadership.

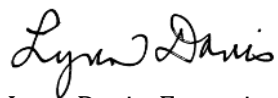

Sam Bauman fulfills my role as the executive director. Dr. Bauman has over twenty years of experience in administrative management, behavioral health, juvenile justice, substance use treatment, and human service agencies. Our agency and community will be pleased with the excellent choice of our search committee in choosing Sam for this position.

Please read and learn about our upcoming venture of building expansion so we may continue to be responsive to the growing needs of our community.

Please consider CCYSB in your charitable giving and know that we greatly appreciate your willingness to support our work.

With many thanks and warm regards,

Patrick Scheper, Board Chair

Lynn Davis, Executive Director

CONTINUUM OF COMMUNITY BASED SERVICES

Outpatient Behavioral Health Clinic: Mental Health and Substance Use Services for Children, Adolescents & Adults

Services include assessment, individual, family and group therapy, psychiatric evaluations, medication management, psychosocial evaluations, and liaison with school and local service agencies. CCYSB's programs and services provide a full-range of treatment options to meet the needs of individuals and families experiencing the negative impact of mental health and addiction concerns.

Psychiatric Services

CCYSB offers psychiatric services to clients who receive psychotherapy services within the Clinic, Family Preservation, and the Assertive Community Treatment (ACT) program. These medical services are provided by licensed psychiatrists and psychiatric nurse practitioners.

Connecting Youth in Carroll County (CY)

This program serves youth ages 16-24 who are not in school, not employed, and who may be homeless. CCYSB, along with Human Services Programs (HSP) and the Carroll County Workforce Development (formerly BERC) partner to provide a coordinated county-wide approach to re-engage these youth and reduce youth homelessness.

Elementary School Intervention Program

CCYSB provides services to elementary students who are struggling with challenging emotions and behavior. They may have significant mental health concerns or difficult family situations which impact their school experience, and their behavior. Previous efforts to support parents or guardians in addressing the child's needs may not have been successful.

Family Engagement Program (FEP)

CCYSB, in partnership with the Carroll County Department of Juvenile Services (DJS) and Carroll County Local Management Board (LMB), provides behavioral health case management services for youth and their families at risk of involvement within Maryland's Department of Juvenile Services. FEP staff assesses the youth and family's needs and facilitates linkages to services in the community, with the purpose of diverting these youth from involvement, or further involvement within DJS.

Family Preservation and Safe & Stable Programs (FP)

The Family Preservation (FP) and Safe & Stable Family Preservation programs are short-term, home-based programs that provide therapies designed to preserve and improve family relationships and prevent out-of-home placement for children. Goals of the programs include prevention of children from entering into foster care, successful transition of children returning home from foster care, and in some cases, the coordinated move of children into secure, permanent family settings.

Interactive Group Therapy

We offer several Group Therapy options for both adolescents and adults. Group Therapy helps clients manage depression, anxiety, anger, substance use issues and more in a supportive, nonjudgmental, peer and therapist-based environment. While Group Therapy can seem overwhelming and anxiety provoking, studies have shown its effectiveness in helping people find the feedback and support they need to make changes and improve their lives. Our group members often share "it's kind of scary at first, but then it's really nice to be with people who understand and are there to help me. We get something out of helping each other too."

Graduate and Undergraduate Intern Training Program

This program provides intensive training, supervision, and on-the-job experience to master's-level clinical interns and undergraduate students. Interns come from the University of Maryland School of Social Work, Towson University, McDaniel College, Hood College, University of Pennsylvania, Morgan State University, Johns Hopkins University, and several on-line university programs.

Open Access Walk-In Assessment Program

Our agency is pleased to offer expanded Open Access Services. This program provides time for same-day or next-day walk-in mental health and substance use assessments with a licensed therapist, with clinical recommendations. Provided availability, treatment options will be offered, or we will assist in finding you the appropriate level of care.

Mobile Treatment Programs

Our Mobile Treatment Team utilizes a service-delivery model that provides comprehensive recovery-oriented treatment to people with severe and persistent mental illnesses. The team's primary functions are to provide treatment, case management, substance use, vocational, and support services to individuals to assist them in successful community living.

Suicide/Self-Injury Intervention and Violence Assessment Programs

During school hours, an on-call therapist provides a clinical assessment for Carroll County Public School students at risk of suicide or self-harm. The Violence Assessment Program provides assessment for students following a suspension for serious threats or acts of violence.

CONTINUUM OF COMMUNITY BASED SERVICES (CONTINUED)

Evidence-Based Interventions Improves Outcomes

The use of evidence-based interventions aligns with our vision to be the foremost mental health provider for youth, adults and families in Carroll County by providing innovative, culturally sensitive, and highly-effective treatment.

CCYSB's five treatments which are evidence-based models requiring fidelity to the model are:

- **Assertive Community Treatment (ACT)**

The Assertive Community Treatment (ACT) program is a critical service for treating individuals who have the most serious and persistent mental health concerns. The ACT team staff are experienced in psychiatry, nursing, counseling, and substance use treatment. In addition to therapeutic and medical concerns, the team often addresses issues of everyday life: food, budgeting, housing and employment concerns. ACT team members work with clients in their homes, neighborhoods, and community locations; providing crisis management 24 hours a day, 7 days a week.

- **Brief Strategic Family Therapy (BSFT)**

This program is a short-term, problem-focused, evidence-based model which serves youth 6-18 years-old and involves the entire family in the counseling process. BSFT serves children with conduct problems, problematic family relationships, substance use, delinquency, aggressive & violent behavior, risky sexual behavior, and anti-social peer involvement. BSFT focuses on problematic interactions within the family, replacing them with healthier interactions.

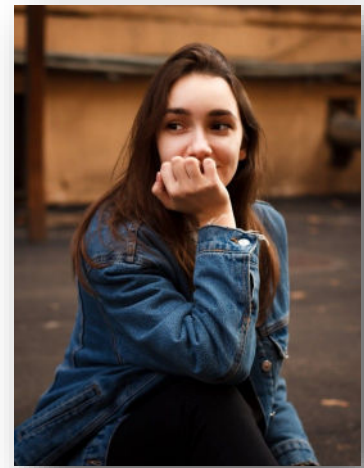

- **Child-Parent Psychotherapy (CPP)** This treatment model serves young children from birth through age five and their parents/caregivers. One of the main goals of Child-Parent Psychotherapy is to support and strengthen the parent-child relationship as this relationship is central to the child's healing, development, and well-being.

- **Dialectical Behavior Therapy (DBT)**

Dialectical Behavior Therapy is an evidence-based, cognitive behavioral treatment originally developed to treat chronic suicidal ideation, self-harm behaviors and traits of borderline personality disorder. The treatment model has proven effective in treating other complex, and challenging disorders such as substance dependence, depression, and post-traumatic stress disorder [PTSD].

- **Parent Child Interaction Therapy (PCIT)**

This program is an empirically supported treatment for young children (ages 1-7) with disruptive behaviors. PCIT integrates concepts from social learning theory, traditional play therapy, and attachment theory to enhance the parent-child relationship, increase children's pro-social behaviors, and increase the parent's behavior-management skills.

Please visit our newly-designed website at www.CCYSB.org for more details, additional programs, and contact information.

CARF ACCREDITATION RENEWAL

In the fall of 2022, the staff at CCYSB once again committed to excellence in undergoing an extensive accreditation process by CARF, the 'Commission on Accreditation of Rehabilitation Facilities.' CARF requires us to devote ourselves to quality improvement, focus on the unique needs of each person we serve, and monitor the results of our services.

Achieving this accreditation involved an internal examination of both our program and business practices. Providers must sufficiently demonstrate its conformance to the standards in order to earn CARF accreditation.

We are extremely proud to announce that CCYSB received a 3-year accreditation, demonstrating the values, qualities and commitment we possess as we provide services to the Carroll County Community!

OUR SIGNATURE ANNUAL FUNDRAISING EVENT

The 15th Annual

An evening of Dinner,
Dancing and Decadence!

After a two-year hiatus, due to the pandemic, CCYSB was able to once again host our annual LIVE, fabulous, formal fundraising event. This year's "Queen of Hearts" themed event was a smashing hit, and as always, all funds raised through the ball directly support our mission, a cause so extremely important during these unprecedented times.

The event was generously sponsored by PK Law and Terry's Tag & Title and was held on Saturday, February 11th at the Portico of St. John in Westminster. Approximately 300 guests filled the ballroom and enjoyed hors d'oeuvres, a bountiful buffet dinner by Liberatore's in Eldersburg and gourmet chocolate desserts by JeannieBird Baking Company. Live music by The Colgan-Hirsh Band, the Magic of William Gross, and a photo booth entertained attendees. Alston Shipley served as our event's MC and live auctioneer.

Through sponsorships, tickets, and evening sales, over \$85,500 was raised before expenses, with an additional \$31,000 collected for the newly-introduced 'Lynn Davis Legacy Fund' (see page 10 for details.)

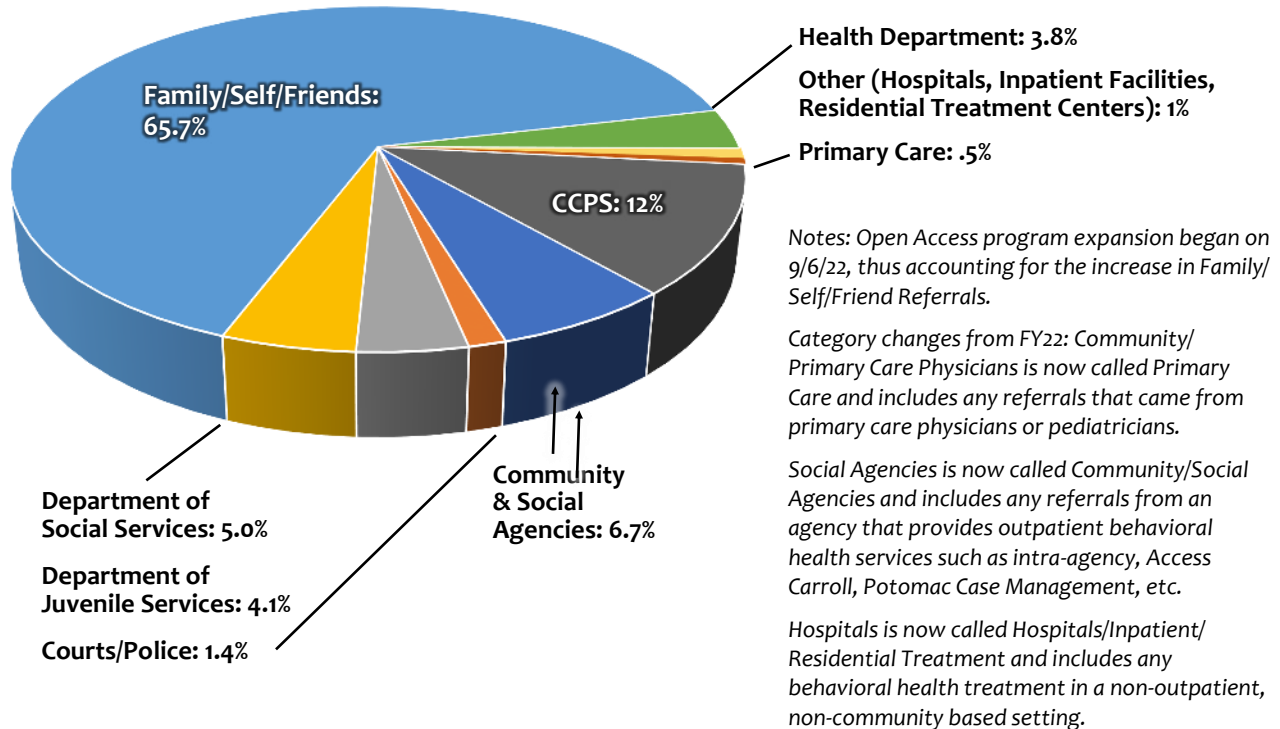

As always, we are so very grateful for the continued generosity and support from the community who make this annual event so successful for our organization!

Photos: A variety of our wonderful guests, supporters, and volunteers in attendance at our annual event... and one of our incredible centerpieces.

REQUESTS FOR SERVICES IN FY2023

REVENUES AND EXPENSES IN FY2023

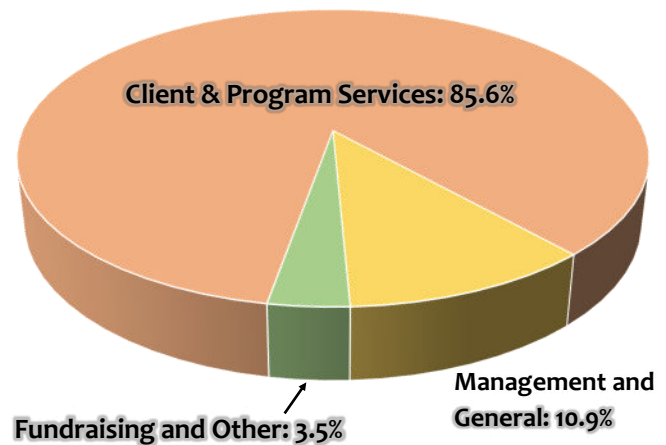

FY23 Revenues: \$6,666,158

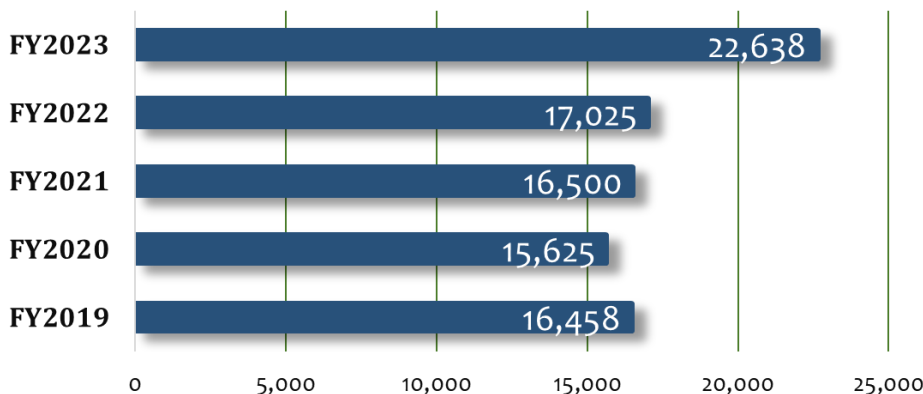

The FY2023 independent audit was completed as of June 2023, and reported total revenues and support of \$6,666,158 for a 24.2% increase from FY2022. The increase was due to a significant pledge for a new building addition 10.6%, an increase in State and Local agency fundings 5.4% and an increase in Client Fees 3.8%. Client Fees continue to outpace all other revenue sources at 44.9% of total revenues with State and Local agency fundings at 23.8%.

FY23 Expenses: \$6,055,583

The FY2023 audit reported total expenditures of \$6,055,583, reflecting an 8.8% increase from FY2022. Client & Program services made up 5.9% of the expense increase and was directly related to the increased funding received for the services. Client/Program Services are 85.6% of the total agency expenses followed by Management and General expenses at 10.9%. The most significant expenses for Client & Program Services were salaries, related payroll taxes and employee benefits making up 84% of all expenses within this category.

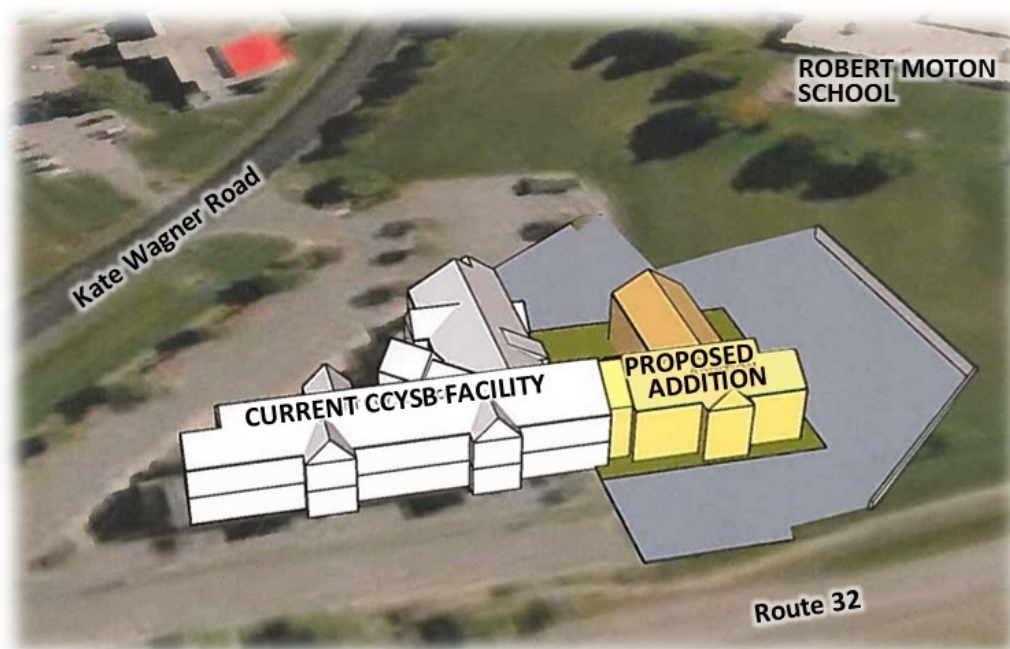

NUMBER OF SESSIONS IN FY2023

Note: With the implementation of an enhanced Electronic Health Record system, our agency is now able to more accurately track the number of clients served, which additionally, has been on a steady increase for several years.

A NEW CAPITAL CAMPAIGN.... *OPENING NEW DOORS TO A NEW*

Since 2009, CCYSB has experienced added programs over the past 10 years, but has been unable to perform at maximum capacity due to limited physical space. In October of 2019, CCYSB received a Block Grant from the Board of Commissioners for the construction of a 10,000 square-foot addition.

The proposed project will address the needs of the Youth Service Bureau's Assertive Case Management and Family Engagement (FE) programs for those individuals with severe and persistent mental health needs who require intensive wrap-around services. These individuals, primarily youth between the ages of 16-24, are often unemployed, not in school, and have a history of youth involvement with the Department of Mental Health.

Additional space not only equates to more people served, but also to more services themselves such as the ability to operate a Mobile Treatment program, increasing availability in the outpatient clinic, as well as increasing the number of groups for all three programs. Furthermore, the additional space will allow CCYSB to employ the "one-stop-shop" concept for clients in that they will be able to receive a full array of services (e.g., clothing laundering, personal hygiene, employment assistance, etc.) in one location, enabling them to benefit from a true continuum of care model. The outcomes for these struggling populations will be improved in that they will have experienced a betterment in their mental health symptoms, ultimately living fuller and more productive lives.

Our agency is already knee-deep in the planning phase of this building project... we have assembled a 'Facility Addition Committee', have completed the feasibility study with an outside firm, and are preparing timelines and materials needed to begin planning all aspects of this momentous project that will greatly benefit the members of the Carroll County Community.

“ I’m excited for the next stage of CCYSB’s expansion that will pave the way for continued growth in the indispensable services the agency provides for the community!

Patrick Scheper
CCYSB Board Chair (former)

We will be sharing all the exciting updates with you as they occur, and we look forward for your continued support and encouragement!

TOMORROW!

...ced serious growth, increased needs for services, and 3 years at Kate Wagner Road. Some of our programs are efficiency and/or are unable to expand due to insufficient 21, CCYSB received a \$35,000 Community Development County Commissioners to pay for a feasibility study for 1-foot addition onto our current facility!

...ss the current insufficient space for the Carroll County e Community Treatment (ACT), Connecting Youth (CY) ograms to operate at maximum efficiency. ACT serves d persistent mental health illnesses who require to keep community placement. CY serves disconnected t who, in addition to struggling with their mental health, ol, and/or homeless, while Family Engagement serves ment of Juvenile Services (DJS) who exhibit significant

The new addition will:

- ◆ Expand group therapy, counseling, and psychiatric services for clients with a goal of providing services for an additional 500 individuals (20% increase) within two years of the addition.
- ◆ House our new Mobile Treatment Program... allowing nurses, therapists, and mental health counselors to serve a population with more serious needs, including those individuals who are unable to leave their home. This strategy has measurable impact on reducing homelessness, emergency room visits, and instilling a sense of individual responsibility.
- ◆ Address the needs of the Assertive Community Treatment team, which serves people with severe and chronic mental health needs. An increased and more adequate office space in the addition will allow for enhanced program services to more readily address basic needs and enhance life skills. These include laundry facilities, a teaching kitchen, and an employment center.
- ◆ Provide general meeting space to increase group therapies, hold staff and board meetings, and deliver continuing education to our community.

THE LYNN DAVIS LEGACY FUND

Making an Impact... Leaving a Legacy.

Lynn Davis has been with Carroll County Youth Service Bureau since 1983. She even served as one of CCYSB's first interns while obtaining her master's degree to become a Licensed Clinical Professional Counselor (LCPC).

For the last 24 years, Lynn has served as our agency's executive director and secretary of the board. During her tenure at CCYSB, Lynn strengthened the agency's continuum of community-based mental health services for children, adolescents, adults, and families by integrating substance use and evidence-based treatment programs into the agency's practice.

In 2008, Lynn led a \$7 million campaign to build the agency's beautiful, stand-alone facility on Kate Wagner Road—with support from state and local government, foundations, CCYSB staff, community members, and organizations.

Lynn demonstrated great leadership, which inspires her team of employees to accomplish amazing things for the betterment of our community. She embodies sincere enthusiasm and passion for our organization and its mission, which is contagious. She recognizes staff accomplishments, possesses a generous spirit, and has strong passion and commitment to the Carroll County Community.

happy retirement

We will miss seeing her daily at CCYSB, and she will NEVER be forgotten!

To honor Lynn, our agency created a new fund... The Lynn Davis Legacy Fund... which provides support for CCYSB's programs and various needs that are near and dear to Lynn Davis' heart.

We invite you to donate to our "Lynn Davis Legacy Fund" to support our mission to provide exceptional mental health and substance use services to our clients, and the increasing numbers of people affected by mental illness.

Please visit our website at CCYCB.org if you wish to contribute.

PROGRAM HIGHLIGHT: OPEN ACCESS WALK-IN ASSESSMENTS

At the corner of readiness and accessibility.

Carroll County Youth Service Bureau provides integrated and evidence-based treatment approaches for youth, adults, adolescents, and families experiencing mental health and/or substance use issues.

Our Walk-In service provides a same-day/next-day, comprehensive behavioral health assessment with a licensed therapist, and recommendations within three days. Provided availability, treatment options will be offered, or we will assist in finding you the appropriate level of care.

Services through our Open Access program include providing both scheduled and same day/next day, walk in diagnostic assessments as well as clinical recommendations for each client assessed based on their diagnoses, level of care needed, and type of therapeutic program and modality that best fits their clinical needs. Same/next week psychiatric services are available to clients who are connected to mental health or substance use services within CCYSB.

The need for mental/behavioral services has only been exacerbated by the pandemic; as a result, the wait for services at CCYSB and across the county has been persistent. This program aims to combat our agency's waitlist so that as many people as possible who are seeking help can receive it in a timely manner. Additional goals are to continue offering multiple assessment slots per week; continue to find ways to provide high-quality treatment to as many people in need as possible; expand use of telehealth assessments as an option to increase accessibility as well as to refine the workflow for this process; utilize newly created electronic paperwork with clients to improve the assessment experience; and continue to explore needed areas of improvement for staff training.

For more information:

Robin Harlan, LCPC, Program Director
rharlan@ccysb.org — 443-244-8695

Open ACCESS AT CCYSB

WALK-IN ASSESSMENT HOURS:

Tuesday:

8:30am to 12 noon and
2:00 to 5:00pm

Wednesday:

11:30am to 2:00pm

PLEASE CALL 410-848-2500

Please call first to speak with our front office to confirm date and time availability for walk-in services before you arrive. Arrive at least 60-90 minutes prior to end of assessment hours to allow adequate time for admission and paperwork completion.

****We have a limited number of assessment slots available each day.****

A VISIT FROM SENATOR BEN CARDIN'S OFFICE

On March 6, 2023, Carroll County Youth Service Bureau, was extremely honored to welcome Senator Benjamin Cardin and Field Representative, Jessica Cook, to our agency.

The Senator and Ms. Cook, along with representatives from other Carroll County agencies, plus CCYSB Board Members and staff, gave the Senator an in-depth tour of our facility, discussing many of our behavioral health programs and services.

An informative discussion meeting followed, rich with conversations involving topics such as: services we provide in conjunction with the public school system; behavioral health concerns as a result of Covid (including increased anxiety & depression as well as suicide rates in youth); areas of need for our agency and the County, and our latest venture... a building expansion (please see the center spread for more information.)

We thank Senator Cardin for his time and interest!

OUR BOARD OF DIRECTORS

CCYSB is governed by a volunteer Board of Directors. These talented board members serve as advisers, decision makers, problem solvers, and advocates for CCYSB. It should be noted that they contribute countless hours in meetings and throughout our community, advocating for our non-profit organization.

Our agency benefits every day from the dedicated energies and time devoted by the members of our board.

We thank you for all that you do!

50TH ANNIVERSARY CELEBRATION

On September 16th, 2021 from 4 to 6pm, Carroll County Youth Service Bureau held our 50th anniversary of providing outpatient mental health treatment to the Carroll County community.

About 75 former and current employees along with members of the community, including donors, attended the event at our facility on Kate Wagner Road to mark the occasion. Andie Luchini, our organization’s Director of Development, Marketing, Events and Community Outreach, noted that this was an “incredibly important” event, explaining that it was the first time since before the COVID-19 pandemic that the agency could get together as a group. “It was really great to see people. It was the first gathering outside of our agency, that we could get together and celebrate with everyone.”

During the evening, our nonprofit announced that it had commissioned a feasibility study on a planned 10 thousand square-foot facility expansion. The expansion will allow our nonprofit to continue what it has been doing for 50 years — providing mental health, suicide and substance use services for children, adolescents, adults and families in Carroll County. The event also included proclamations from both state and county officials to commemorate the organization’s 50th anniversary.

Carroll County Commissioner Ed Rothstein, who represents District 5, read a proclamation to the audience and praised the nonprofit’s leadership. Rothstein said the Bureau is a “wonderful organization and an integral part” of the county’s approach to taking care of its citizens. He said county officials are committed to help identify the nonprofit’s needs and “going after the resources they need.”

Special Thanks to retired Board Chair, Patrick Scheper

Over the last ten years of service, Pat was a dedicated, insightful board member and chair, and a strong advocate for CCYSB. He shared his understanding and appreciation of our work in so many ways and advocated strongly on our behalf to the community. Our agency thanks you for your years of dedication to being an integral part of significantly bettering the lives of the people in our community!

A WONDERFUL NEW PARTNER

This past spring, the Bud's Ride planning committee presented CCYSB with a most generous donation from the proceeds of the first annual 'Bud's Ride for Suicide Awareness.' The event was held on in September of 2022, and the donation will assist CCYSB in offering suicide-associated services to the citizens of Carroll County.

On January 31, 2017, just one day following his 36th birthday, Carroll "Bud" Gross, III, left his beloved family and friends with unexplainable pain, by taking his own life. Bud grew up in Carroll County and attended Westminster High School. He became a truck driver at the age of 18 and was the owner of C.L. Gross Trucking. Bud's family and friends worked diligently to organize the fundraising event to raise funds and increase suicide awareness, helping prevent future suicides.

CCYSB is so very thankful for this generous support from the Bud's Ride committee and all those who supported their event! For more information about this cause, please visit their Facebook page at: www.facebook.com/BudsRide.

PROUDLY
ACCREDITED BY:

ADDRESS SERVICE REQUESTED

We, Carroll County Youth Service Bureau, commit ourselves to provide a continuum of community-based mental health and substance use services for children, adults, and families in Carroll County. We use a multi-disciplinary approach to deliver prevention, intervention, and treatment services in the least restrictive and most cost-effective manner. In the true spirit of the helping profession, we are dedicated to excellence in service, innovation in programming, and responsiveness to our community.

- We will continue to be the foremost mental health and substance use provider for individuals and families of Carroll County.
- We will offer state-of-the-art treatment, while increasing the population we serve.
- We will create innovative programs to serve the community and encourage diversification of job roles for our staff.
- We will share our expertise through training, research, and continuing education.
- We will be financially sound.
- We will maintain a joyous work environment through our respect and caring for each other.

"It Starts With the Heart."
